FOR IMMEDIATE RELEASE: August 7, 2008

Trinity's Secondary School

Kailua, Hawaii – Trinity Christian School (TCS) in Maunawili, Kailua completed the renovation of their new Makai Campus located at the Kailua United Methodist Church facilities at 1110 Kailua Road in Kailua. The summer's workforce drew local support from area churches, parents, staff, volunteers and businesses which culminated to Trinity Christian School's new Secondary School that is scheduled to open August 11th. The freshly painted classrooms will accommodate the 5th – 8th grade students with state of the art computer technology and the newly arrived Classical Christian curriculum that includes Latin, Logic, and Rhetoric Studies which will compliment this new endeavor. As the 7th and 8th grade students pioneer Trinity's first class of Secondary School students, there is anticipation of what the first graduating class will accomplish with the college preparatory curriculum. Next year, Trinity will add 9th grade. Each subsequent year thereafter, they will add another grade until 2012 where the first graduation class of Trinity will debut.

"The excitement filled the air as students and parents visited the renovated campus on Thursday, July 31st and Friday, August 1st. We were extremely blessed by the Harold K. L. Castle Foundation, the Atherton Foundation and other local businesses along with parent and staff volunteers that made the renovation possible. Our special thanks go to our wonderful Facilities Manager, Mr. David Greer, for his leadership in seeing us through this project," remarked Jason Wood, Secondary School Principal.

Along with new curriculum, each 7th and 8th grade student will possess a computer laptop that will support the rigorous curriculum that has been hailed as one of the best curriculums in the country.

Classical Christian education is not a new concept but rather a proven historical educational method that has resurfaced in the last twenty years which has also received high marks for its thorough comprehensive education that leaves each graduate with more opportunities at the collegiate level.

Trinity Christian School is a college preparatory school which is an educational ministry of Trinity Presbyterian Church that partners with families to educate and nurture the spirit, heart, and mind of each child in order that they may come to know the grace of God in Christ and grow in faith and wisdom.
